SUBJECT: Weekly Activities Report No. 16
 15 - 22 April 1959

I. SIGNIFICANT ITEMS

A. Scientific and Technical Operations Course (S&T): The Scientific and Technical Operations Course No. 2 began on Monday, 20 April with an enrollment of 22 students. However, [REDACTED] (FI Staff) was not able to attend the first day's lectures because of a serious illness in his family. Since [REDACTED] has not yet reported for duty, he has been dropped from the course. It would be impossible for him to make up the work which he has missed to date - 22 April.

The first two days of the Course show significant improvement over S & T No. 1. The guidance to guest speakers by the Course syllabus, together with the briefing of OSI participants by [REDACTED] (OSI) on Tuesday, 14 April, helped the speakers performance. Most of the speakers made effective use of training aids (slides, charts, blackboards, and film), and have achieved the objectives cited by the syllabus for each unit of instruction. In the first day's introductory lectures, Drs. Herbert Scoville, Jr. (Importance of Science and Technology in the World Today), [REDACTED] (Organization of Scientific Intelligence), and [REDACTED] (Organization and Functions of the Scientific Operations Branch, FI Staff), gave satisfactory performances. Messrs. [REDACTED] (Organization and Functions of the Office of Scientific Intelligence), [REDACTED] (Introduction to the Course), and [REDACTED] (Reporting of Scientific and Technical Information), as usual, spoke succinctly and effectively.

The time given to the Fundamental Sciences block of instruction, was increased by adding an introductory talk by Dr. [REDACTED] (Chief, Fundamental Sciences Division, OSI), by giving additional time for a discussion of physics and mathematics, and by scheduling a panel discussion of the fundamental sciences. Drs. [REDACTED] (Physics and Mathematics), performed well.

C. War Planning Course: War Planning Course No. 18 is scheduled for 27 April - 15 May. 21 students have registered, with representation of five from the Office of Security, six from DDI, two from Logistics, one from Communications, and one from War Plans Division, PPC. Six officers will attend in an Active Duty capacity for the first two weeks. These Active Duty officers are three from DD/I, one from EE/DDP, one from Security and one from Personnel. The average grade of the students (omitting two regular Army Majors from Logistics and one regular Navy Commander from PPC) is GS-14, the highest of any class to date.

25X1A9A D. Information Reporting, Reports and Requirements (IRRR): Six students successfully completed training in IRRR on 17 April. A seventh, [REDACTED] FI/[REDACTED] will finish 23 April; she is making up work missed 6-9 April, when she was on sick leave.

25X1A

E. Information Reports Familiarization (IRF): Eight students are attending Information Reports Familiarization No. 9, which started 20 April. Six are from NEA; two are from FE. Six are headed for field assignments and particularly need training in the preparation of the new type of cable information reports. GS grades range from 4 to 11. Instead of putting in only half-days for two weeks, [REDACTED] FE/[REDACTED] who is going to the field as a reports officer, is spending full time in the course. He and Miss [REDACTED] are the only university graduates.

F. CI Familiarization Course (CIF): A schedule for CI Familiarization Course No. 14 (27 April - 1 May 1959) was prepared and distributed during the reporting period. To date, 7 students have been enrolled in the Course. This number falls short of the course minimum of twelve. The CI Staff Training Officer is touching base with the area division training officers to "bump up" the Course.

G. Counterintelligence Operations Course No. 26 (CIO): The CIO Course is in its third week. The overall performance of the class is excellent.
